## Where people and trails meet!

Located in the heart of the Appalachians, and straddling the St. John River, Perth-Andover has three major trail systems converging on this historic village with Maliseet, English, and Scottish heritage. Local crafts, a famous restaurant, a castle inn, bass fishing, and riverside picnics, make Perth-Andover a definite stopover.

Visit the Southern Victoria Historical Museum to discover the heritage that has created this part of the region. For a little fun, visit our recreation facilities and cool off in our outdoor pool and splash pad water park.

Hike or cross-country ski the three trail systems. The International Appalachian Trail, the Trans Canada Trail and the Sentier NB Trail are waiting to be explored, providing you with scenic vistas and a return to nature.

Browse through the Perth-Andover Farm Market, the region's largest, every Saturday at the River Valley Civic Centre, to find the best of the woods and waters, and delicious home-baked treats fresh from local kitchens.

Telephone (506) 273-6740

Take a break from the road by visiting our Visitor Information Centre- Carleton-Victoria Tourist Association Tourist Bureau. Come and open the solid wood hand-carved bear and moose entrance doors to acquire information on special attractions and experiences in our village and surrounding area in both New Brunswick's official languages - English and French. The VIC is open from June to September; 8:00am – 6:00pm.

After freshening up in our restrooms and acquiring your information, enjoy a light snack, and cold drinks, including fresh spring water from the cooler available inside the VIC, or have a picnic on our grounds under the shade of a tree or picnic shelter. Listen to the gurgling sound of a nearby brook and watch the ducks on the pond while your children wear off their excess energy at the playground.

Other services include computer and pay phone access to keep in touch with your friends and family while away from home.

We have all you need for a restful, informative travel break – stop in, we look forward to seeing you.

# TOWN OF HARTLAND

Hartland, the smallest town in New Brunswick, with a population of about 902, has a varied and interesting history. It was known as "Mouth of the 'Guimac" until it was officially changed to "Hartland" about 1870. Some say it was named in honor of Rev. Samuel Hart, an early Baptist minister; others say it is in honor of James Hartley, an early surveyor; while others say it was named because it was "the heart of the county."

Its early settlers were loyalist with William Orser and his six children being the first settlers. William's first wife died and he married Mary Blake Craig, who also had six children. To complete the story William and Mary had six more children. Mary Blake Craig Orser is called the "Mother of Hartland."

The river has always been important in Hartland's history. As early as 1813 Troops were moved from the Maritimes to Upper Canada on the river, especially when it was frozen.

Steamships plied the river waters in the mid-1800s, but only during high water.

In 1997 Hartland was the National winner of "Communities in Bloom" a contest for communities with a population under 1500. In 1998 Hartland won "The Canadian Living Award for the Best Community Spirit."

# Town of Woodstock

Woodstock (Exit #185 & 188) [www.town.woodstock.nb.ca](http://www.town.woodstock.nb.ca)  
 Incorporated May 1, 1856- Population: 5113 – Tel: 506-325-4600  
 New Brunswick's First Town

Woodstock, New Brunswick's First Town, is rich with more than 150 years of history and heritage and is home to some of New Brunswick's first pioneers. Settled on the banks of the Meduxnekeag and St. John rivers, Woodstock boasts some of the finest 19th-century homes, churches and civic buildings in the Maritimes. Visitor Information Centres are located at the Farm Market building in downtown Woodstock and at Petro Canada off the Trans Canadian Highway, Exit 185.

Tracing your family tree? The on-site genealogist at the L.P. Fisher Public Library will be glad to help, as will the Carleton County Historical Society, ([www.cchs-nb.ca](http://www.cchs-nb.ca)) housed in the newly renovated Hon. Charles

Connell House, where the "Connell Stamp" is displayed. Take a stroll on Woodstock's Historical Walking Tour to admire the architecture of these Victorian-era homes.

Woodstock Farm Market ([www.woodstockfarmmarket.ca](http://www.woodstockfarmmarket.ca)) is open daily to purchase locally grown produce, crafts and tasty home baking. Fridays are the traditional market day, when all the vendors are there between 8 am and 4 pm. Enjoy unique products such as barbecued sausage, buffalo burgers, fresh-brewed organic coffee and hot apple cider. Home-cooked breakfasts and lunches are available from the market kitchen.

Walk the Meduxnekeag Valley Nature Preserve, ([www.meduxnekeag.org](http://www.meduxnekeag.org)) has 7 km of walking trails through a unique form of Appalachian Hardwood Forest where you will see many trees, flowering plants, and ferns uncommon in New Brunswick. Discover many scenic lookouts along tranquil forest walks among mature trees.

Celebrating more than 65 years, Old Home Week ([www.oldhome-week.ca](http://www.oldhome-week.ca)) brings together the past and the present. This family event is home to the Miss New Brunswick Pageant ([www.missnb.com](http://www.missnb.com)), Joe McGuire Road Race and the traditional country fair (animals, fairground rides, harness racing), with modern attractions (demolition derby and live entertainment). The week ends with a spectacular fireworks display.

The Dooryard Arts Festival ([www.rivervalleyarts.net](http://www.rivervalleyarts.net)) is a gathering of artisans who showcase their wares and talents in the downtown area. Bass fishing showcases Woodstock as one of the premier places in North America for catching smallmouth bass because the waterways are a natural breeding ground for this frisky fish.

# VILLAGE OF HARVEY

Bring your canoe or boat, then relax and practice your fishing at Harvey Lake, known for its quality small-mouth bass or take part in the annual fishing derby. Harvey has several shops and cafes to enjoy home-cooked meals and home baked goods and in-season local produce. The market also features two floors of antiques and collectibles, charming local arts and crafts, a flea market, and public rest rooms. Visit the Briggs & Little Woolen Mill, Canada's oldest woolen mill, since 1857.

The Village of Harvey is a warmhearted vibrant community located just 47 kilometers southwest of Fredericton, the capital of New Brunswick.

First settled in 1838 by a group of 16 Scottish families, Harvey is steeped in history with many of the early buildings still in existence and some say the spirits of these earlier residents are still present as well.

Harvey was once well known as a railroad town and a great farming area, having been dubbed the Jersey Capital of Canada. Farming has now been largely replaced by residential development and many light industries have found it a supremely satisfactory location as Harvey is only minutes away from the Maine Border at Vanceboro, making it viable to set up for import/export.

One of the earliest industries in the area was established in York Mills in 1857. This still exists as the Briggs and Little Woolen Mill and fine yarns are exported internationally to the U.S., Europe, England, Australia and other countries.

Many of the existing general merchandising outlets had their roots in the late 1800's and are still in operation as general stores, food services and convenience outlets.

See a giant fiddle - erected as a tribute to the late Don Messer (1909 - 1973) born in the nearby community of Tweedside.

Moving ahead approximately 150 years, the families of this area are kept informed of the community activities by the "Lionews", one of the many services provided by the local chapter of Lions International. Youth are kept busy attending many numerous functions, including a Girl Guide Movement, 4-H Club, Army Cadets, school-sponsored sports, and youth church organizations. Some of the local residents

indicate that they never get a chance to stay home, as there is something to do every night.

Harvey is only minutes away from King's Landing Historical Settlement, Canada's #1 tourist attraction. Visitors to our communities are welcome to stop at the unique gift shops and stores and participate in the many year-round activities. In the winter, people can be found ice fishing, curling, cross country skiing, playing hockey or out on the approximately 60 miles of groomed snowmobile trails maintained in the area in the summer, residents and visitors utilize the many lakes in the area for boating, fishing, swimming and water-skiing. Should you wish, you can just park your "home on wheels" or rent a cottage, relax and enjoy the panoramic scenery and perhaps, catch one of the many local artisans at work, as tours of most of the manufacturing outlets are available at your request. Harvey is a great place to visit and many visitors have decided that they would like to live here.

# Mactaquac

## Mactaquac Provincial Park is a broad woodland and recreation complex.

Discover the beauty of this 525-ha (1,300-acre) masterpiece along one of the many walking trails, one of which is wheelchair accessible. Spend the day at freshwater beaches and let your cares drift away. Enjoy soft breezes coming off the water while you sunbathe, windsurf, canoe, fish or have a picnic.

## Mactaquac Fish Culture Station

When the Mactaquac Hydroelectric Dam was proposed for the Saint John River in the early 1960's, concern was expressed over its probable effects on the migratory fish resources. As a result of this concern, a fish collection facility was built into the dam, a trucking operation was initiated to distribute fish upriver, and the Mactaquac Fish Culture Station was constructed to compensate for salmon production losses in the flooded area behind the dam.

Today, the Mactaquac "fish" facilities include the Fish Collection Facility and trucking operation (at the dam), the Accelerated Rearing Facility (beside the dam), and the Main Salmon Hatchery (on this site).

Riverside Resort & Conference Centre overlooks Mactaquac Lake.

Our vibrant culture is on display at top-notch art galleries, heritage museums, historic districts, concerts, and theatre. Help inspect the Guard in the Historic Garrison District. Explore the majestic St. John River by canoe or kayak. Make your way along 85kms of riverfront trails on a bike rented from the Lighthouse on the Green. Play a round of golf on a world-class championship course at Kingswood or enjoy a day at a local spa, then play hard at night with live bands in the Tannery Entertainment District. There's lots of fun for families too, including cool hands-on experiences at Science East, New Brunswick's only Science Centre or a day at the beach at Killarney Lake or Mactaquac Provincial Park. Be active or slow down and relax...the choice is yours.

### Arts & Entertainment

Fredericton is an art & entertainment mecca. Nearly every month offers up a festival or celebration and The Playhouse, the city's premiere performance venue, offers more than 60 diverse performances- everything from dance, music, comedy and theatre. Maritime pubs make for a rollicking good time of traditional and contemporary live music. During the summer months enjoy free Excellent Evening Entertainment in the Historic Garrison District, 7 nights a week.

### Dining & Nightlife

Fredericton is one of Atlantic Canada's cosmopolitan capitals. Whether it's casual fine dining accompanied with a celebrated wine list or a spirited evening of Maritime music at a pub in The Tannery Entertainment District, our lively nightlife ends a perfect day exploring the Capital Region. Live music or theatre, often from excellent local performers, and gallery openings are on tap most nights. On weekends, Fredericton takes its place among the East Coast's greatest music cities. It's not unusual to have a dozen live acts playing the cities hotspots, many located in the Tannery. Pub hopping and band watching is a favoured pastime. Dining is diverse in Fredericton. Family fare and seafood are readily available. International cuisine is also an option with everything from Indian to Greek, Caribbean and Mexican. Excellent wine lists can be found at several area restaurants. Many serve seasonally fresh and locally-grown ingredients. Creative cuisine is the rule.

The Fredericton Exhibition Grounds are located on Smythe Street in the heart of downtown Fredericton and in close proximity to Wilmot and Odell parks. The Exhibition Grounds provides facilities for the agriculture industry for education, exhibition and distribution as well as the annual fall Fair known as the FREX, which is Atlantic Canada's largest agricultural fair. The FREX showcases events from Provincial livestock shows and sales to local and regional 4-H activities.

The FREX, as fair patrons know it today, owes its origin to the enthusiasm of Sir Howard Douglas. As Governor of New Brunswick from 1824 to 1831, he proved himself one of the best administrators of the Colonial period. He did much to encourage road building, agriculture and education; and he promoted New Brunswick's first exhibition.

To this day, over 180 years later, Fredericton Exhibition Ltd. still operates under its original patent and is governed by the Agricultural Associations Act. Any citizen of York County may be a member of Agricultural Society District #34, York County.

## St. Stephen

St. Stephen is situated on the International Boundary between New Brunswick, Canada and Maine, U.S.A.. The lower part of this boundary is the St. Croix River, a Canadian Heritage River, which has been steeped in history since the French explorers, Champlain and de Monts, first ventured on St. Croix Island (sometimes called Dochets Island ) in 1604.

One hundred and eighty years later, in 1784, the United Empire Loyalists arrived following the American War of Independence. They joined the few original settlers in the area.

The area grew both economically and culturally, and by 1800, St. Stephen was perhaps the most important regional port for shipments of timber and lumber overseas. Both sides of the St. Croix River became studded with numerous shipyards and wharves, as a "Golden Era" began. The many docks were crowded with Tall Ships loaded with lumber bound for Europe.

The two communities share lives as "border towns" in a most neighbourly fashion. In fact, in 1812 the people of St. Stephen loaned Calais sufficient gunpowder to celebrate the 4th of July while both countries were technically at war.

St. Stephen was incorporated as a town in 1871, then five years later its business district was almost totally consumed by fire when eighty buildings and thirteen wharves were destroyed.

By the turn of the century, lumbering and shipbuilding had all but disappeared from the area. The perseverance of its people and diversification of its economic base helped the town survive. The same enterprise and dedication continues today as St. Stephen begins the 21st century.

### Things To See and Do

**CHOCOLATE MUSEUM** is a must for all chocoholics! Devoted to the wonder of chocolate, the museum is an indoor, unique and interactive experience displaying the history of Ganong Bros. Ltd, candy makers in St. Stephen since 1873.

**HISTORIC BUILDINGS** View the many different architectural styles in our wonderfully historic town including Lonicera Hall (1841) and Todd Mansion (1890).

**TIDES OF THE ST. CROIX**, a Canadian Heritage River, are the highest in the world. They rise and fall twice daily.

**OLD TRAIN STATION**, built by the Canadian Pacific Railway in 1929 is the backdrop for many community activities and concerts in the Town Square.

**LOYALIST BURIAL GROUND**, 1784-1863, restored in 2008, is the resting place for 69 Loyalists, many who helped build the town.

**NATURE PARKS** Stroll the beautiful gardens at Dover Hill, make a splash on the pad at Chocolate Park or enjoy the view from the lookout at the site of Cotton Mill Workers' Monument.

**RIVERFRONT WALKING TRAIL**, take a leisurely walk along the scenic river and watch for eagles overhead or even catch a view of one 'fishing'.

**GANONG NATURE PARK**, a 350 acre natural park, features a spectacular coastline that overlooks the St. Croix River. The park has woods, fields, many trails and 180 acres of intertidal area.

**ST. CROIX ISLAND**, just down the river from St. Stephen is where Champlain and de Monts in 1604 tried to establish the first settlement north of Florida.

# St. Andrew's by-the-Sea

Saint Andrews, NB or St. Andrews By-the-Sea as it is commonly called was founded in 1783 by the United Empire Loyalists. This little seaside Town is well preserved with many of the original buildings still gracing the Town Plat. Some of these buildings were barged to the area from Castine, Maine at the end of the Revolutionary War and are listed under the New Brunswick and Canadian Registry of Historic Places.

Throughout the decades Saint Andrews has welcomed visitors from all corners of the earth. Currently, the population is around 1800 year round and significantly increases in the summer.

Today, Saint Andrews represents one of the best preserved examples of colonial heritage in North America. While maintaining its charm,

Saint Andrews is also a dynamic, prosperous community. Small town values and friendly neighbours mix easily with a spirited business environment. For the residents of Saint Andrews, life is indeed charmed.

*"Thar she Blows!"*

Imagine the excitement when you first view the blow of a whale spouting. The Bay of Fundy is teeming with wildlife and is a critical habitat for many species of whales, dolphins and seals.

A most unique tour is aboard the Tall Ship Jolly Breeze of St. Andrews, N.B. In addition to the greater than 95% success rate seeing whales, there is a licensed bar, washroom and plenty of Comedy central style humour. Children create lasting memories with steering the vessel, earn an honorary Captains license, pirate costumes, face painting and an onboard touch aquarium with star-fish and more. Joanne's complimentary homemade soup is worth the price of the ticket.

This trip is sure to be a highlight of your vacation.

Reservations are recommended:

1-866-529-8116, Jollybreeze.com, Jollybreeze@hotmail.com.

Commonly sighted aboard these whale watching tours are the Humpback whale, Minke whales, and Finback whales. The Bay of Fundy also has a Nursery for the Endangered North Atlantic Right Whale. Other whales

occasionally sighted in the Bay of Fundy include the Sei Whale and Pilot Whale. A rare sighting would include the Blue Whale, Sperm whale, Killer whale, and Beluga whale.

If you want see whales and dolphins during your trip it's important to note that the Bay of Fundy whale watching season runs from June to October inclusive. The whales and dolphins of the Bay of Fundy are graceful and spectacular and sure to be a highlight of your vacation!

### Save The Whales

The GMWSRS (Grand Manan Whale and Seabird Research Station) in NB has a save the whales program. Families, individuals, businesses and school groups can adopt an Endangered North Atlantic Right Whale. See AdoptRightWhales.ca and GMWSRS.org. You will be presented with a certificate of Adoption of a specific whale.

# Pennfield, Pocologan & Blacks Harbour

## PENNFIELD

During the latter part of the summer be on the lookout for signs of Blueberries For Sale. Charlotte County is famous for its blueberries and roadside stands in the Pennfield area will attest to that. The annual Blueberry Festival is held in August. Recent medical reports indicate there is a definite positive link between blueberries and the fight against cancer. Pennfield boasts several fine restaurants and shops, many of which specialize in seafood and home baking.

The main highway through this quiet, rural community brings visitors right to the edge of the Bay of Fundy. Whether at high or low tide, it can only be described as "picturesque".

## POCOLOGAN

The name Pocologan is thought to be derived from an Indian name meaning "resting place". No wonder so many visitors stay in the motels and campgrounds for several days at a time. It truly is an "Oceanside Paradise". Some older inhabitants may be able to relate local folklore to keep you entertained.

## BLACKS HARBOUR

Blacks Harbour is a friendly, small fishing village located in the south-western region (Charlotte County) of the province of New Brunswick. The population is just over 950 people, whose strong sense of community is readily evident to visitors of the area ...everyone knows your name!

This area is the proud home to two major businesses: Connors Bros. Ltd. and Cooke Aquaculture Inc. Connors Bros. is a division of Clover Leaf Seafoods, LP and Bumble Bee Foods, LLC, which together comprise North America's largest branded seafood company. Cooke Aquaculture is one of the top 50 Best Managed Companies in Canada and markets its products under three brands; True North Salmon, Heritage Salmon and Jail Island Salmon.

Blacks Harbour provides the mainland gateway to the largest island in New Brunswick, Grand Manan Island. Coastal Transport Limited is pleased to offer daily, year-round ferry trips to North Head on Grand Manan from Wallace Cove in Blacks Harbour.

Our warm hospitality awaits you on the Bay of Fundy Shore, Blacks Harbour, New Brunswick.

## The Granite Town

Discover the blend of old and new as you explore our enchanting town. Stroll quiet and unpretentious streets to the spot where the first settlers climbed ashore from the Magaguadavic River in 1783. Catch a glimpse of the past in the granite post office and the Presbyterian Kirk, still in continuous use. In the early years all denominations attended this Kirk. In the forests around the town, sense the ghosts of the past in abandoned granite quarries. View our world famous gorge from above and below the falls. Marvel at the stubborn Atlantic Salmon maneuvering the fish ladder. Scan the sky above the river basin for eagles. Thrill for the sight of an osprey diving for its prey. Walk through our Covered Bridge at Canal and then enjoy a day of sun and sand at Lake Utopia. Keep one eye open for the Lake Utopia Monster. It still lurks here.

Gather information on everything to do in and around our area at the tourist facilities at the Day Adventure Centre. Photo opportunities abound on the lookout of the Magaguadavic basin on the banks of the upper river in St. George, where the river meets the sea, where visitors meet unspoiled countryside, uncrowded beaches but always a friendly welcome!

This District was for years the center of the granite industry in New Brunswick. The area came into production in 1872 with the opening of a quarry on the shore of Lake Utopia and the erection of a finishing plant in St. George. "The Bay of Fundy Red Granite Company" was founded by Mr. Charles Ward, a New York artist and photographer, after he became very intrigued by the immense ledges of deep red granite while on a fishing trip to Lake Utopia. This pioneer company had its successes and failures, but the business grew and the granite industry became the leading employer of the area. In 1890, there were six firms in St. George manufacturing the different coloured granites quarried near the town.

The typical St. George granite is bright red in colour, but many different shades occur in the district. Specific colours were obtained from various quarries offering customers a wide selection. This granite of high quality was employed mainly for monumental purposes and to a very limited degree, for building. The granite quarried in St. George was acknowledged by retail dealers as being superior, prettier, and more durable than any imported. For this reason, samples of our work can be seen in nearly every Canadian cemetery.

The falling-off of the industry was not due to any fault of the manufacturers, but the removal of the tariff between Canada and the US. After 60 years as a flourishing industry, the St. George gran-

ite industry began to die slowly. After World War II there continued to be some demands for gravestones, however, a vigorous industry was unable to thrive on such occasional contracts. In 1953 the last firm was closed marking the end of the St. George granite business.

Though the industry is no longer operational, it has forever left its mark on the community. The St. George post office and granite monuments in area cemeteries continue to remind us of our roots as, "The Granite Town".

Today there is a large Salmon Aquaculture Industry in the area. St. George has become an important commercial and industrial service area in the Fundy region as a result of a dynamic and quickly growing aquaculture industry. The industrial park is conveniently located near aquaculture operations at Lime Kiln Bay and the Bay of Fundy.

### Our Most Photographed Scenic Attraction

The Gorge is worth a couple of visits, as the high tide changes the landscape dramatically. The cliffs on either side are said to be riddled with caves, one of which is said to connect with Lake Utopia. The dam and mill were built by St. George Pulp and Paper, which ceased operations in 1967. Shortly after the dam was built, the salmon ladder was installed to benefit stocks of wild salmon that migrate up the Magaguadavic River to spawn. The ladder has enabled a serious conservation effort to protect and enhance the wild salmon run.

# Bigtide

BREWING CO.  
Saint John, New Brunswick

Big Tide Brewing Company, Saint John's only brew pub and restaurant, commenced brewing their hand-crafted all-natural ales and lagers at their 47 Princess Street location in August of 2009. Since then we have gained a reputation for offering high quality beer accompanied by food that reflects the flavours of our brews.

Our brewers, Wendy Papadopoulos and Chris Welch, are intensely passionate about their personalized approach to the science of brewing. Their dedication is manifested in the taste and flavour consistency of their efforts.

Chef Tom MacArthur has developed a customized menu with appetizers and entrées that focus on the use of our flavourful brews during their creation. Our delicious pub staples and specials are the perfect match to our beer.

Big Tide strives to celebrate our regional heritage, history and culture through the names of our brews: Fogbound Hemp Pale, Seaworthy IPA, Benedict Arnold Extra Special Bitter and Sandpiper Pilsner to name a few. The latter is named for our unofficial mascot - the semipalmated sandpiper. This tiny shorebird is common in the Bay of Fundy area in late July and early August as it stocks up on fuel for its long trip back to South America. The semipalmated sandpiper is unique and distinct--just like us. Wise semipalmated sandpipers know that the best place to fuel up is the Bay of Fundy, which is, coincidentally, where you'll find the Big Tide Brewing Company, source of some of the best fuel around.

## The Famous REVERSING FALLS & the 1ST GEOPARK in North America STONEHAMMER

Saint John is home to the world-famous Reversing Falls. In Saint John harbour, the Bay of Fundy water mingles with the St. John River. Because of the height of the tides and the geography of the River's mouth, this is no ordinary river flowing to the sea. Twice daily the mighty St. John River is pushed backwards (upstream) by the Fundy tide. This is known as the Reversing Falls. The reversal of the direction is no small feat considering the length of the River ( 750 km / 450 miles) and the volume of water forced through the narrow gorge at the Falls (equivalent 24-hour flow of all the world's rivers). In Saint John, we experience 8.6m (28 foot) tides; this is the difference from low to high tide.

NEW: Saint John has been designated the first UNESCO Geopark in North America! Stonehammer geological park has over a billion years of geological history, fascinating rock formations, and fossil finds! Created by the collision of two continents, you'll sail along side 500 millions years of rock formations in the vicinity of the Reversing Falls. Saint John Rocks!

## Here is the story of the Bay of Fundy, its highest tides of the world and the Reversing Falls rapids:

Saint John is a city surrounded by cliffs and water. The surging colossal tides of the BAY OF FUNDY create an outstanding salt water harbour. Just around the corner fresh water gathered along the route of the St. John River flows towards the sea. Twice daily, millions of gallons of water flowing inward and outward from these bodies of water swirl and clash as they battle for supremacy in the wondrous phenomenon know as the REVERSING FALLS.

Several natural features come together to form the Falls – the narrowing of the St. John River, the shape of the gorge and an underwater ledge are all part of the creation. However, the most important element is the head on collision of two mighty bodies of water – the Bay of Fundy and the St. John River.

The Bay of Fundy has the highest tides in the world. One hundred billion tons of water cascade through the mouth of the Bay from the Atlantic Ocean every 12 hours. This volume is double the daily flow of all the rivers of the world.

The St. John River begins in a wilderness region in Northern Maine. From there to its outlet in the Bay of Fundy, the River winds south – a distance of 450 miles.

The Micmac and Maliseet Indians of this area explains the Reversing Falls in a legend about their great god Glooscap. Glooscap was the keeper of life in what is now New Brunswick. All life with one exception, the beaver, accepted Glooscap's supremacy. One day, the animals ran to Glooscap exclaiming, "Come quickly, Beaver has built a dam across the mouth of the river and the water is spreading over the land."

Glooscap picked up his giant club and hurried to the mouth of the river. In his rage, he smashed the dam; parts of it remain as the islands that are still there. The force of his blow caused the water to swirl and race. Glooscap announced he would leave it that way so Beaver could not build another dam. The Indians begged Glooscap to change his mind. Finally, he agreed to calm the waters for 20 minutes every six hours, which is why we have slack tide.

The first recorded reference to the phenomenon of the Reversing Falls by a European was made about 1525 by Esteban Gomez, a Portuguese seaman. He called the waterway, "Rio de La Buelta", the river that goes to and from.

On average, 10 millions gallons of water per minute pour through a 330-foot opening stretching from one side of the river to the other. It tumbles through at up to 25 or 30 knots.

At high tide, the water from the bay becomes higher than the river level and – slowly at first – the river begins to flow upstream. As the bay tides continue to rise, the reverse flow gradually increases and the rapids begin to form, reaching their peak at high tide. At this point, the tidal waters of the bay are actually 14 ½ feet higher than the river.

As the cycle continues the Bay begins to drop.

# The Old City Market

First opened in 1876, the Old City Market has withstood the test of time - from The Great Fire of 1877 which devoured the city around it only a year after it opened, to the twentieth-century urban renewal that built a brand new city right outside the iron gates.

A full city block in length, the Market runs downhill from the "head of the Market" on Charlotte Street, gently sloping to the Germain Street entrance, a full 20 feet below. At both entrances hang the same gates that have swung closed at the end of each business day since 1880. Crafted from heavy wrought-iron, their graceful design is a tribute to the skill and artistry of the local blacksmith who created them.

Saint John City Market has been designated by the Government of Canada as a place of national historic significance. This place is part of the Family of National Historic Sites, one of more than 800 places across Canada which help define the important aspects of Canada's diverse but common heritage and identity.

## The Loyalist House

One of the few surviving buildings of the Great Fire of 1877, the Loyalist House serves as a proud reminder of Saint John's British Loyalist heritage. Built in 1817, the Georgian features of this National Historic Site has remained structurally unaltered.

Originally known as the 'house on the hill', it was constructed of pine with cyprus shingles on the south and west walls. The front entrance still holds its original fanlight and brass knocker.

The house was originally owned by the Merritt family.

Acquired by the New Brunswick Historical Society in 1959, the Loyalist House is a breath-taking beauty preserving the excellence of the early craftsmen of Saint John.

Come and visit downtown Saint John to take in the full features offered.

# Irving Nature Park

Irving Nature Park, a 600 acre (243 hectare) site, was created by J.D. Irving, Limited to help protect an environmentally significant, endangered area. This special part of the Fundy Coast, minutes from a major urban centre, is now a place where the public can enjoy and experience the various ecosystems of Southern New Brunswick's coastline.

The peninsula of volcanic rock and forest on the Bay of Fundy shoreline, is swept twice daily by seawater with some of the highest tides in the world. Mud flats and salt-marsh are along one side; a long sand beach is on the other. The area nurtures one of New Brunswick's richest marine ecosystems.

The abundant rich food sources found in the salt-marsh and the sea attract numerous species of migratory and marine birds. The area is a traditional staging site on flight paths between the Arctic and South America, and a breeding ground for many shore birds along Atlantic coastline. More than 250 species of bird have been seen here during migration periods.

A vehicle road encircles the park, and eight walking trails of different lengths and difficulty allow visitors to tour the park without endangering sensitive areas. Help the fragile ecosystems survive by staying on trails and roadways, and by respecting the park's preservation guidelines.

J.D. Irving, Limited maintains the park and keeps it open to visitors on foot, year 'round. The company provides park naturalists to give tours and answer queries from May to October. During the winter special guided outings are offered by experts in subjects like local history, nature, and astronomy.

# Kingston Peninsula

Sometimes you just need a break from it all. You want to pack up the kids and get away. Fortunately for families in the Saint John area the perfect escape is in their own backyard. Nestled between the magnificent St. John and Kennebecasis Rivers, the Kingston Peninsula has something for everyone and is little more than a half hour drive away. Whether you're a history buff, an outdoor enthusiast or looking for family fun you'll find it all in this historical, rural community.

If you want a historical excursion be sure to visit the historic Kingston Corner at the crossroads of Routes 845 & 850. This area, now known as Kingston, was the site of the first major Loyalist settlement on the peninsula. The Loyalists built the Anglican Rectory and Union House Hotel in 1788 (now Kingston General Merchants). The other historic buildings include 1810 Carter House now functioning as a tearoom and gift shop, the 1910 Macdonald Consolidated School that also houses the John Fisher Memorial Museum and 1789 Trinity Church the oldest

Anglican church in NB. Other historical sites on the peninsula include the 1914 lighthouse and 1920 covered bridge in Bayswater.

Outdoor enthusiasts have a broad scale of options ranging from a simple quiet drive over the back roads while enjoying the panoramic views to the structured outdoor education and recreation opportunities provided by Elmhurst Outdoors or Adair's Lodge and Cabins. Travelling any of the roads offers limitless opportunities for photography, sight seeing and bird watching.

A family fun day usually includes a visit to the seasonal markets. The Original Peninsula Farmers market offers a cozy atmosphere and interesting vendors. Maria Wiggins, who also runs Reid's Point Pub & Grill, makes the breakfast and sells other delicious goods. The (new) Kingston Farmers Market has a larger number of vendors and offers more of an opportunity for social gathering. Both markets are well worth visiting and are open Saturday 8am to 1pm. Fullerton's Corner Market, open seasonally seven days a week, offers naturally grown seasonal vegetables, ice cream and more. Other stops could include Crimmin's Pottery, U-pick apples, Long Reach Paintball, swimming and much more.

No matter your reason for visiting the Kingston Peninsula be sure to stop at Kingston General Merchants located at the historic crossroads of Routes 845 & 850. They have an extensive selection of inventory including gas, diesel, propane tanks, groceries, snacks, coffee & more of Maria's great sandwiches, lotto, fireworks, ice, hardware, tons of general merchandise, antiques & collectibles, a well-stocked Liquor Agency Store and ATM. Kingston General Merchants is open 7 days a week until 10pm to meet all your shopping needs.

# Kingston Peninsula

Nestled between the arms of the Kennebecasis and Saint John rivers, the Kingston Peninsula harkens back to an earlier era. Driving on our country roads, you feel like you are in another world. But the truth is, you're only minutes from the bustling, happening city of Saint John.

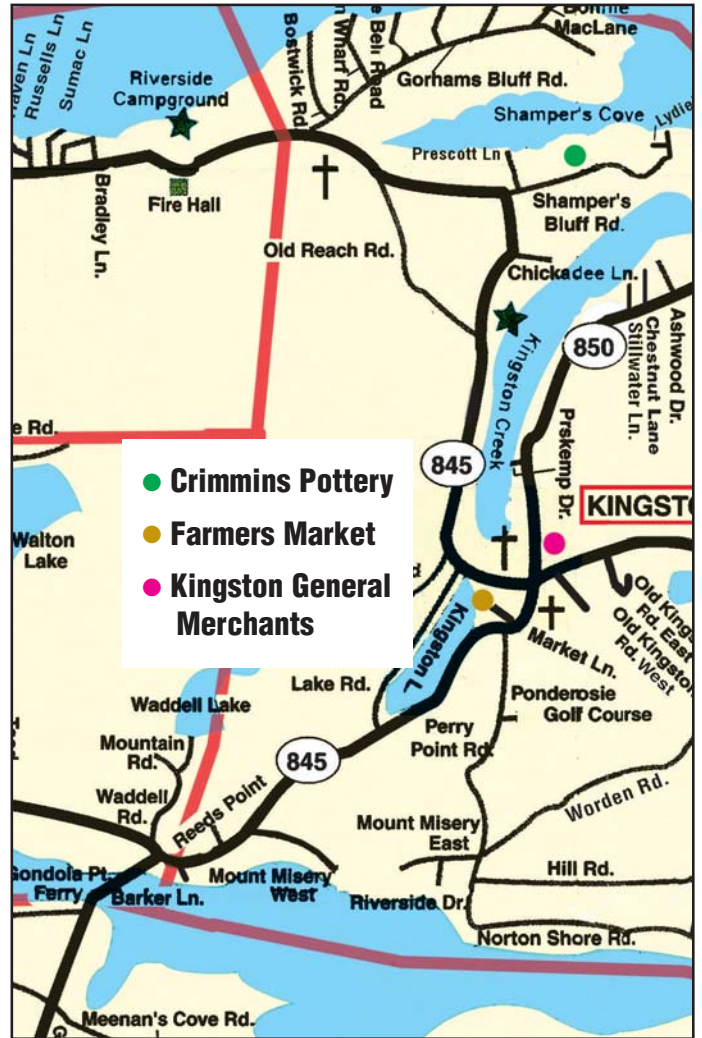

We're New Brunswick's best kept secret ... the Kingston Peninsula.

## History of the Kingston Peninsula

The area now known as Kingston was the site of the first major Loyalist settlement on the peninsula.

The first Loyalists arrived in 1783 and quickly made their mark, building the Anglican Rectory and Union House hotel in 1788, and the Trinity Church in 1789 - all of which are still standing and actively functioning.

Other historic buildings still stand: the 1810 Carter House now functions as a tea room and gift shop; and the MacDonald Consolidated School building (1910), which is one of the first consolidated schools established by the MacDonald Foundation.

# CRIMMINS POTTERY

Crimmins Pottery is a second generation business and has long been a part of the New Brunswick craft community . Allan and Sarah Crimmins have been producing quality handmade pottery since 1970. Their daughter Elizabeth joined the business in 1995 and now runs the business with husband John and their two spirited boys...Gregor and Ben. Elizabeth is continuing the family business of producing functional stoneware pottery as well as some one of a kind pieces.

"Much of how and where I live is captured in my work; my life is constantly changing and being influenced by the work I do".

The studio is situated in the St. John River valley at Shampers Bluff, just 35 kilometers from Saint John, New Brunswick. Visitors are always welcome, may watch work in progress, and will always find the pottery shop brimming with creative pieces suitable for any setting.

## Welcome to St Martins

Nestled on miles of quiet, unspoiled Bay of Fundy beaches, is the serene seaside community of St. Martins. The village is the gateway to the Fundy Trail, a park with walking and hiking paths along the last undeveloped stretch of coastline on the eastern seaboard.

Located on the shores of the famous Bay of Fundy, home to the World's Highest Tides, St. Martins is a beautiful, picturesque village with a rich history. Our scenic village has many interesting features, included are Victorian properties; miles of unspoiled, quiet, accessible beaches; two lighthouses; a garden-park; an active harbour boasting two covered bridges; world famous 'Sea Caves'; and is 'The Gateway to the Fundy Trail'.

Centrally Located between Hopewell Rocks and St. Andrews, the village of St. Martins provides a spectacular setting from which to explore the entire Fundy Coast.

The original name of the community was 'Goolwagagek'\*. A Micmac Word meaning haunt of the hooded seal' according to DeMoules map of 1686. Over many years it was translated as 'Araquaki'. Later translations of the name produced Roquaque and finally by 1762 it appeared on a map (presently in the Library of Massachusetts Historical Society) as Quaco. It has remained unchanged since that time.

The newly settled community was christened St. Martin's by one of the original grantees – Matthias Moran after his ancestral province in France. Matthias Moran was the founder of the prolific Moran Shipbuilding family.

This family together with the Vaughan family accounted for greatest number of vessels built at St. Martin's yards. These two families mastered many of their own vessels, sailing around the world under their own "House Flag." An additional thirty-seven families are considered major builders of St. Martin's vessels. This little village was to become the third largest producer of wooden sailing vessels on the eastern seaboard of North America.

The first of the more than 500 vessels built at St. Martin's was launched in 1803 and named the RACHEL. The last vessel was launched in 1919 and named the SELINA K. GOLDMAN. When the days building sailing vessels ended, many men who comprised the talented workforce of the village found employment at the Saint John Shipbuilding Company where they used their expertise in shipbuilding to produce the great modern commercial and naval vessels used today. The last vessels on which St. Martin's men shipbuilders were involved were the Halifax Class Frigates built for the Canadian Navy in the 1990's.

The unique architecture of the village was, in many instances copied from European buildings, the intricate designs of which were brought back by sea captains and incorporated into their own homes here. Those who could afford it – and there were several, brought artisans from Europe to decorate the interiors of their homes by painting their ceilings and wall panels. Unfortunately, little of this art remains today. There were, as well local cabinet-makers who produced everything from sleigh beds to origi-

nal doors, chairs, desks and other furniture for the shipbuilder's homes as well as their own.

In 1879 the first train ran on the new St. Martin's – Hampton Railway. This proved to be a money-losing venture as the track ran north-west to Hampton rather than to Saint John- the natural commercial centre nearest St. Martin's 1940 saw the end of railway service to the village.

A disastrous fire on May 31 1900 destroyed over 68 buildings in the village - many of them the finest examples of Victorian architecture to be found anywhere.

St. Martins was incorporated by an Act of the New Brunswick Legislature on November 9, 1967.

Over the past decade, St. Martins has become known as one of New Brunswick's most beautiful seaside vacation resort communities. The Village is a magnet for artists and photographers wishing to capture the unspoiled beauty of the area. A small community of artisans produce pottery, paintings and sculptures.

And, there area growing number of unique shops and galleries. Opportunities for hiking, walking, biking, birdwatching, rockhounding, and beachcombing are all within steps of excellent dining and a range of accommodation in campgrounds, cottages, B&Bs, and country inns.

## - YOUR GATEWAY TO THE FUNDY EXPERIENCE - AN ADVENTURE FOR EVERY SEASON!

### LIKE COMING HOME

Sussex, a traditional small town nestled in the beautiful countryside of New Brunswick, is at the juncture of the River Valley Scenic Drive, the Fundy Coastal Drive and Route 1. Unwind at a quaint bed and breakfast, motel or rural campground. Enjoy our fine dining and home cooked meals. Peek through a window on history at our Agricultural Museum, celebrating the Dairy Centre of the Maritimes. Bask in our heritage and culture. Behold some of the fine local arts and crafts and history at the Sussex Museum, Gallery & Tea Room where you can also savour a refreshing pot of tea made here for a generation by G.E. Barbour Inc. Enjoy our festivals and year-round recreational activities. Sussex really is just like coming home.

### GATEWAY TO THE FUNDY EXPERIENCE

Make Sussex the base for your travels on foot, by bicycle, by canoe and kayak, or by car! Sussex leads you to attractions like Fundy National Park, Hopewell Rocks, Magnetic Hill, the Fundy Trail Parkway and - of course - the famous covered bridges of Kings County. Vacation in New Brunswick this year!

Take day trips to New Brunswick's three major cities: Saint John, Fredericton, and Moncton. There's easy access to Nova Scotia and Prince Edward Island.

### N.B. ANTIQUE AUTO CLUB INC. GIANT FLEA MARKET

This annual event is always the third weekend in August. So you may want to consider booking your vacation so that you don't miss out on some super buys. Last year there were over 750 vendors on the Princess Louise Park grounds and inside the various buildings located here.

This event draws people from near and far, and everyone leaves with a smile.

### TAKE FLIGHT WITH OUR BALLOON FIESTA.

In September, Sussex pulls out all the stops with the spectacular Atlantic International Balloon Fiesta. On the weekend after Labour Day, balloonists from all over take flight and gently soar over our brilliant Fall foliage. There's something for everyone ... balloon and helicopter flights, a craft fair and so much more.

### MURAL CAPITAL OF ATLANTIC CANADA

Make the Mural Capital of Atlantic Canada part of your travel plans this summer! You will marvel at 26 panoramic scenes telling the larger-than-life stories at the heart of the Picture Province.

Internationally-renowned artists have captured our rich local history in vibrant colour throughout the beautiful downtown areas of Sussex and Sussex Corner.

This is your chance to visit this one-of-a-kind 'outdoor art gallery' where you can enjoy the story of the region's heritage, from its start as a Maliseet community to our

proud role as a world leader today. Stroll amid New Brunswick giants of industry, sport and legend. Marvel at their courage, foresight and determination in detailed scenes sure to delight and amaze you. It's storytelling at its best, and you'll want to see every line.

### HISTORY

The Town was named in honour of the Duke Of Sussex, son of King George III. The area was settled by a few families before the arrival of the United Empire Loyalists in 1784 from New Jersey. As the settlement of the Loyalists developed, the Parish Of Sussex was established in 1786. Growth continued in the Parish with the development of the agricultural and forestry industry and the opening of the European and American railway line in 1860, thus leading to the incorporation of the Town Of Sussex in 1904.

The Town Of Sussex has and continues to provide services for the needs of the agricultural and forestry sector throughout the years. In addition, from 1939 through the 60's, Sussex was the location of Camp Sussex. During the war years, Camp Sussex was home to 10,000 troops, thus providing a natural tie with the Canadian Armed Forces.

### SUSSEX FARMER'S MARKET

The Market runs every Friday from 11 - 4 pm at Princess Louise Park, Perry St., Sussex.

Over 40 Vendors with many food vendors (meat, seafood, poultry, emu products, fruit, vegetables, candy, home baking), plus crafts, wood working, jewellery, knitting, and more!  
Watch for Special Days!

/

### NB AGRICULTURAL MUSEUM

The NB Agricultural Museum is located in Princess Louise Park and displays the proud heritage of the area's agricultural past. The museum has indoor and outdoor exhibits, featuring antique farm equipment, a blacksmith's shop, a relocated train station and a caboose.

Our collection includes hundreds of artifacts from our province's rural way of life. From agricultural equipment, house wares, and military memorabilia, to an impressive railway display.

# RCMP Musical Ride

***Experience and be a part of a colourful Canadian tradition.  
Experience a living tribute to Canadian heritage and history.***

Today, in keeping with tradition, the Musical Ride is performed by a full troop of 32 riders and horses, plus the member in charge. The Musical Ride consists of the execution of a variety of intricate figures and cavalry drill choreographed to music. Demanding utmost control, timing and coordination, these movements are formed by individual horses and riders, in two's, four's and eight's at the trot and at the canter. Months of training, practice and many kilometres/miles around the riding school make horse and rider one. The horses must not only appear in the Musical Ride, but on Parliament Hill, in parades, special events and have the ability to travel and adapt to different environments, not to mention, hours of petting and photo-taking that the horses must patiently endure.
