# TOWN OF HARTLAND

Hartland, the smallest town in New Brunswick, with a population of about 950, has a varied and interesting history. It was known as "Mouth of the 'Guimac'" until it was officially changed to "Hartland" about 1870. Some say it was named in honor of Rev. Samuel Hart, an early Baptist minister; others say it is in honor of James Hartley, an early surveyor; while others say it was named because it was "the heart of the county."

Its early settlers were loyalist with William Orser and his six children being the first settlers. William's first wife died and he married Mary Blake Craig, who also had six children. To complete the story William and Mary had six more children. Mary Blake Craig Orser is called the "Mother of Hartland."

The river has always been important in Hartland's history. As early as 1813 Troops were moved from the Maritimes to Upper Canada on the river, especially when it was frozen.

Steamships plied the river waters in the mid-1800s, but only during high water.

In 1997 Hartland was the National winner of "Communities in Bloom" a contest for communities with a population under 1500.

In 1998 Hartland won "The Canadian Living Award for the Best Community Spirit."

# VILLAGE OF HARVEY

Bring your canoe or boat, then relax and practice your fishing at Harvey Lake, known for its quality small-mouth bass or take part in the annual fishing derby. Harvey has several shops and cafes to enjoy home-cooked meals and home baked goods and in-season local produce. Visit the Briggs & Little Woolen Mill, Canada's oldest woolen mill, since 1857.

The Village of Harvey is a warmhearted vibrant community located just 47 kilometers southwest of Fredericton, the capital of New Brunswick.

First settled in 1838 by a group of 16 Scottish families, Harvey is steeped in history with many of the early buildings still in existence and some say the spirits of these earlier residents are still present as well.

Harvey was once well known as a rail-road town and a great farming area, having been dubbed the Jersey Capital of Canada. Farming has now been largely replaced by residential development and many light industries have found it a supremely satisfactory location as Harvey is only minutes away from the Maine Border at Vanceboro, making it viable to set up for import/export.

One of the earliest industries in the area was established in York Mills in 1857. This still exists as the Briggs and Little Woolen Mill and fine yarns are exported internationally to the U.S., Europe, England, Australia and other countries.

Many of the existing general merchandising outlets had their roots in the late 1800's and are still in operation as general stores, food services and convenience outlets.

See a giant fiddle - erected as a tribute to the late Don Messer (1909 - 1973) born in the nearby community of Tweedside.

Moving ahead approximately 150 years, the families of this area are kept informed of the community activities by the "Lionews", one of the many services provided by the local chapter of Lions International. Youth are kept busy attending many numerous functions, including a Girl Guide Movement, 4-H Club, Army Cadets, school-sponsored sports, and youth church organizations. Some of the local residents indicate that

they never get a chance to stay home, as there is something to do every night. Harvey is only minutes away from King's Landing Historical Settlement, Canada's #1 tourist attraction. Visitors to our communities are welcome to stop at the unique gift shops and stores and participate in the many year-round activities including the annual Harvey Community Days celebrations. In the winter, people can be found ice fishing, curling, cross country skiing, playing hockey or out on the approximately 60 miles of groomed snowmobile trails maintained in the area in the summer, residents and visitors utilize the many lakes in the area for boating, fishing, swimming and water-skiing. Should you wish, you can just park your "home on wheels" or rent a cottage, relax and enjoy the panoramic scenery and perhaps, catch one of the many local artisans at work, as tours of most of the manufacturing outlets are available at your request. Harvey is a great place to visit and many visitors have decided that they would like to live here.

# Village of Gagetown

The Village of Gagetown is a favourite place for boating, wildlife, history, arts and crafts, and country hospitality. It is a tranquil haven for those escaping the rush of city life. The village is located on Gagetown Creek, a deep water anchorage off the Saint John River. Waterfront facilities include a public wharf, free boat launching ramp and picnic park as well as a marina with floating docks and boat moorings. The river and countryside afford a wide choice of activities: boating, birding, canoeing and kayaking, cycling, hiking and

autumn apple picking in our orchards. Nature lovers may follow the marked trails of the Mount Ararat Wildlife Management Area on Gagetown Island and two other nearby Ducks Unlimited marsh preserves. Visitors are welcome to explore and enjoy the beauty and hospitality of this historic rural village.

Gagetown and the surrounding area is a photographer's

paradise and an inspiration to artists. Contemporary works of art and craft are shown at the studios of a growing number of talented artists and artisans for whom the village is both home and workplace. In this village is a deep sense of the past. Landmarks include the Claremont, an outstanding example of Victorian Gothic, the Mount House ruins on Gagetown Island, St. John's Anglican Church, Queens County Court House (1836), the Tilley House (1786), birthplace of Sir Samuel Leonard Tilley, a Father of Confederation and the Loom-crofters Weaving Studio where the NB Tartan was created.

We also have many festivals and events running from May to

November including the 70th Annual Queens County Fair, the popular Vintage in the Village and the fun and exciting Folly Fest Folk Festival with several free concert venues

throughout the Village. Come by river or come by road – whichever way, you'll enjoy your stay!

# GRAND BAY-WESTFIELD A COMMUNITY OF FRIENDS

## Gateway to the historic St. John River and Bay of Fundy

The Grand Bay-Westfield area offers an outstanding quality of life set in dramatic scenery. The favourable climate and scenic waterways create a variety of recreational possibilities from birdwatching to ice fishing for residents and visitors alike.

While visiting our "Community of Friends" enjoy summer fresh vegetables, ice cream, or home cooking at the local bake shop and restaurants! Take in International Sculptures, Heritage Trail, Outdoor Exercise Equipment, Outdoor Tennis, Outdoor Walking/Running Track, Bike, Camp, Beaches, Boat, Golf, Hike, take a free 10 minute Cable Ferry across the St. John River for scenic views.

Via the Grand Bay-Westfield loop on Route 177,

take a well-deserved break from straight highway driving – from Saint John via Highway 7 take Exit 90 – from Fredericton via Highway 7 take Exit 71.

The Town of Grand Bay-Westfield, incorporated in 1998, is comprised of the former Town of Grand Bay and the neighbouring former Village of Westfield. Located in southwestern New Brunswick along the River Valley Scenic Drive, one of the provincially designated scenic routes is home to a community of approximately 5000 residents. Originally part of "cottage country" Grand Bay-Westfield enjoys scenery and relaxing pastimes provided by the nearby rivers and lakes. Boating on the St. John and Kennebecasis Rivers is convenient – with many residents mooring their boats right at their back yard.

In 1784 both black and white loyalists arrived to settle the area and were given land grants. Many local families can trace their roots back to the Loyalists. This town has a rich and interesting history.

For more information go to [www.town.grandbay-westfield.nb.ca](http://www.town.grandbay-westfield.nb.ca)

The Brundage Point River Centre, surrounded by water on three sides is the perfect waterside gathering place. It offers a Visitor Information Centre; wheelchair accessible; washrooms; free high speed wireless internet; benches; picnic tables; public boat, canoe and kayak launch. It is the site of Stonehammer Geopark; and home of sculpture "Rivergate". Located next to the Westfield Cable Ferry, one of many free provincial cable ferries operated by the provincial Department of Transportation using a pair of ferries, that connect the Town with the community of Hardings Point on the Kingston Peninsula.

Proudly situated at the Brundage Point River Centre is the Town's first piece of public art. "Rivergate" was created in 2012 by Bulgaria's International Sculptor Radoslav Sultov during the first bi-annual Saint John International Sculpture Symposium.

Situated magnificently at the Brundage Point River Centre is the Town's third piece of public art. "Untitled" was created in 2016 by Italian International Sculptor Alessio Ranaldi during the third bi-annual Saint John International Sculpture Symposium.

For more information go to

North America's first Global Geopark, Stonehammer Geopark is about geology, but is also about people, society and culture. We are all linked to geology.

Unity Park consists of a gazebo, Westfield Fire Memorial Monument, Ononette Heritage Trail Kiosk, arbors, benches and picnic tables. Created to symbolize the joining of two communities. The small stage hosts the Unity Park Summer Stage Outdoor Events - held, rain or shine, every Wednesday 7:00 pm to 8:00 pm from mid-June to the end of August. (Washroom Facilities Available) **EVERYONE WELCOME. BRING YOUR LAWN CHAIR, RELAX, AND ENJOY THE ENTERTAINMENT.**

Prominently displayed at Unity Park is the Town's second piece of public art. "LOVE" was created in 2014 by France's International Sculptor Fetiye Boudevin during the second bi-annual Saint John International Sculpture Symposium.

Tailwhip Park is an unsupervised youth park. The permitted uses at Tailwhip Park are Skateboarding, BMX Biking, Basketball and Ball Hockey.

Connected to the Trans Canada Trail, take in the beauty around you while following the 14.5 km Municipal Heritage Trail which provides picnic tables and benches at scenic kiosks.

The Blueberry Hill Nature Preserve is a 50 acre environmentally sensitive area located on the shore of the St. John River. The property was acquired in 2010 by the Nature Trust of New Brunswick. The Nature Preserve was officially opened June 14, 2014. Access to the Preserve is via River Valley Drive at Station Street. For more information, history and photos, go to the Grand Bay-Westfield town website - click on the Blueberry Hill Nature Preserve link and download the Trail Map.

There are four golf courses available - all within a 20 minute drive. Within the Town, the Westfield Golf & Country Club is "New Brunswick's most scenic golf course, overlooking the St. John River".

Discover the history of Grand Bay-Westfield! Explore the interactive signage that celebrates the rich heritage of our Community. The Town of GBW is proud to showcase its historic places associated with first settlers, early transportation, commercial activity and recreation.

Read about original family farms, private cemeteries, and early churches. Enjoy photographs of unique landmarks featuring black loyalist's grants, an ancient portage trail, and a riverboat wharf. Learn about a Stagecoach Inn, an early railway, summer communities, a golf course designed by a famous architect, and a fresh air camp for city children. Stories connected to these special places have been collected and are featured on the community's Heritage website.

This Loyalist house, Mount Hope Farm built in 1786, was the original home of Colonel Henry Nase and his family Nase descendants have occupied this property for more than 200 years. Colonel Nase came to the area having served with the Royal Army's King's American Regiment at King's Bridge, New York during the American Revolution. He, along with thousands of United Empire Loyalists, left the newly created United States to settle under the British flag in what is now New Brunswick.

# St. Andrews

Saint Andrews, or St. Andrews by-the-Sea as it is often called, has long been one of New Brunswick's premier vacation destinations. The Saint Andrews area offers an outstanding quality of life in dramatic scenery and an uncrowded, unpolluted environment. For over a century Saint Andrews has been attracting those of wealth and influence. Today, Saint Andrews welcomes all visitors, attracted by its beauty, shopping and recreational activities.

The Algonquin Golf course designed by award winning architect Thomas McBroom has created a golf masterpiece in a spectacular seaside location. The facility incorporated the land from the original 18 hole and 9 hole courses plus additional 50 acres and transformed it into a world class golf course measuring close to 7000 yards and playing to a par of 71. Included is a full service Golf Academy with a 20 acre practice range, a separate short game area and a putting green. The golf course has been recently rated as the top course to play in the

province (rating by Borseman). Other courses in Charlotte County include the St. Stephen Golf Club, the St. Croix Golf & Country Club in Calais, ME and the Campbell Herring Cove Provincial Golf Course. For variety, another six courses are located in the Saint John area.

Saint Andrews also has the W.C. O'Neill Arena, an impressive multi-purpose facility. It has rinks for curling, hockey and skating, theatres and tennis courts. In the summer, one of the oldest and most prestigious hockey schools in North America operates at the arena. Other activities include tennis at the Algonquin Tennis Club, badminton, volleyball, basketball, soccer and swimming.

St. Andrews-by-the-Sea has long been one of New Brunswick's and North America's premier vacation destinations. The world famous Algonquin Hotel Resort ([www.algonquinresort.ca](http://www.algonquinresort.ca)) has been inviting visitors for more than a century. years, and remains a town full of character, quality and charm. The largest full service resort in eastern Canada, the Algonquin has first class convention facilities, and with a recent \$10 million addition, 240 more rooms.

Maintaining this character is complemented by many historic sites including the Algonquin Hotel, a War of 1812 Blockhouse, the Charlotte County Courthouse, and an impressive collection of period homes.

The old downtown commercial core is a shopper's paradise, and it's especially renowned for handcrafts and woolen products. The Public Wharf at the center of town acts as the gateway to the abundant recreational water activities of Passamaquoddy Bay. In fact, the marine life of the region is so varied that Saint Andrews is home to three research laboratories. For visitors, Huntsman Aquarium-Museum is a fascinating look at the Bay of Fundy ecosystem.

Where Saint Andrews distinguishes itself from other communities is in the field of cultural and educational resources drawn from the many artisans and business professionals that make Saint Andrews their summer home. For facilities, the Ross Memorial Museum is exquisite in their preservation of the Town's history and artifacts. The Ross Memorial Museum is proud of its collection of 19th Century New Brunswick furniture, exceptional oriental carpets and objects d'art.

### Blockhouse

The Blockhouse in Saint Andrews is the sole survivor of twelve such structures which were erected as coastal defenses during the War of 1812 - 14 between Britain and the United States. It is one of Canada's 70 major National Historic Sites. Partially destroyed by fire in 1993, it has been carefully restored and looks much the same as it did in the early 19th century. Interpretive displays explain the role and construction of the Blockhouse and guides are on hand daily throughout the tourist season for further assistance.

### Sheriff Andrews House

Sheriff Andrews House is a beautiful example of neo-classical architecture built in 1820. Now a public museum, the house consists of finely detailed rooms displaying period furniture drawn from the provincial collection. This Provincial Historic Site is open daily (in season) to the public and costumed guides provide tours and interpret early 19th century open hearth cooking techniques.

### Ministers Island

Ministers Island is a short drive across the ocean floor (at low tide) from Saint Andrews and was purchased by Canada's visionary railway builder Sir William Van Home in 1890. Wealthy after constructing a railway from sea to sea, Van Horne not only built the barn and his 50-room home, but greenhouses, a windmill, and tennis courts as well. Today, Ministers Island is a protected Provincial Historic Site and visitors can enjoy guided tours during the season.

### St. Croix Island

The first Europeans to settle in the area were a company of French explorers led by Samuel de Champlain and Sieur de Monts in 1604. They attempted to set up a per-

manent community on St. Croix Island, four miles from the mouth of the St. Croix River. After just one winter, which was admittedly unusually severe, the attempt to settle was a dismal failure. Nearly half of the men died of scurvy and exposure. They dismantled their buildings and sailed to a more

hospitable location across the Bay of Fundy, where they founded Port Royal, now known as Annapolis Royal. St. Croix Island is an International Historic Site and had interpretive and viewing parks on both sides of the St. Croix River.

### Charlotte County Courthouse & Gaol

The Charlotte County Archives operates out of the historic Gaol, located next door to the Charlotte County Court House in Saint Andrews. The April Sessions Record of Charlotte County 1832 recorded the plan to build a new "gaol". It was ordered "that it is expedient to build a new gaol, and that a committee, consisting of Colin Campbell, Thomas Wyer, Jr., and Peter Stubbs Esquires, be appointed to find an airy and eligible situation for the site of the said gaol, as well as, to suggest the ways and means to carry the same into execution." Since opening its doors to the first "visitors," countless people have passed through the heavy front door. They came at first as directed by the courts, for indebtedness, murder, mischief, and sundry crimes; Now, they come to learn about our past, to search for family connections: researching marriage, cemetery records, and to make history come alive.

## PENNFIELD

During the latter part of the summer be on the lookout for signs of Blueberries For Sale. Charlotte County is famous for its blueberries and roadside stands in the Pennfield area will attest to that. The annual Blueberry Festival is held in August. Recent medical reports indicate there is a definite positive link between blueberries and the fight against cancer. Pennfield boasts several fine restaurants and shops, many of which specialize in seafood and home baking.

The main highway through this quiet, rural community brings visitors right to the edge of the Bay of Fundy. Whether at high or low tide, it can only be described as "picturesque".

**The Stewart family of Pennfield** bought and began operating a full service Esso gas station in 1973.. To the right hand side of the station they added an additional building called Stewart's Meats. The Meat Shop was run by Bill Stewart Sr. and his son Wayne. The Meat Shop offered all kinds of specialty cuts of meats, (beef, chicken & pork) along with a line of deli meats and cheeses. In the fall of the year, they cut sides of beef and pork for customer's freezers. They also did many moose and deer through the local hunting season. It also offered a small, limited but very fresh line of produce. In 1988 the Stewart family decided to close the garage business of the Esso station, keeping only the gas pumps and propane. They transformed the building into a full line grocery store and in doing so they incorporated the Meat Shop and expanded the produce section. They also added a full line bakery, with meat pies, blueberry, apple, coconut cream, & lemon pies, along with cheesecakes, chocolate cake and numerous other sweet treats. The Meat Shop expanded their business as well introducing a full line of store-made sausages, which became a big hit with customers. A smokehouse was added and a new line of products began to be produced. Kielbassa, pepperoni, beef jerky, smoked salmon, smoked bacon, smoked pork chops and BBQ ribs, just to name a few. In the fall of the year local farmers are visited and the store has a lovely fall display of tomatoes, apples, squash, pumpkins and winter potatoes. Everything you would ever want can usually be found at Stewart's Village Mart and if you can't find what you are looking for the staff there will do their very best to find and get it to you.

## POCOLOGAN

The name Pocologan is thought to be derived from an Indian name meaning "resting place". No wonder so many visitors stay in the motels and campgrounds for several days at a time. It truly is an "Oceanside Paradise". Some older inhabitants may be able to relate local folklore to keep you entertained.

## BLACKS HARBOUR

Blacks Harbour is a true fishing village and is home to Connors Brothers, the world's largest sardine industry. The scenery is spectacular, visit the wharf, watch the Grand Manan Ferry as it docks (the ferry handles passengers, cars and trucks), or spend some time in the park and watch fishing boats as they go about their daily tasks. Enjoy the serenity of the subdued sounds coming across the waters.

Included in summertime events in this community Labour Day Festival in September. A telephone call to 506-456-1054 will give lots more information on events, dining and accommodations in Blacks Harbour.

Big Tide Brewing Company, Saint John's only brew pub and restaurant, commenced brewing their hand-crafted all-natural ales and lagers at their 47 Princess Street location in August of 2009. Since then we have gained a reputation for offering high quality beer accompanied by food that reflects the flavours of our brews.

Our brewers, Wendy Papadopoulos and Chris Welch, are intensely passionate about their personalized approach to the science of brewing. Their dedication is manifested in the taste and flavour consistency of their efforts.

Chef Tom MacArthur has developed a customized menu with appetizers and entrées that focus on the use of our beer during their creation. Our delicious pub staples and specials are the perfect match to our beer.

Big Tide strives to celebrate our regional heritage, history and culture through the names of our brews: Fogbound Hemp Pale, Seaworthy IPA, Benedict Arnold Extra Special Bitter and Sandpiper Pilsner to name a few. The latter is named for our unofficial mascot - the semipalmated sandpiper. This tiny shorebird is common in the Bay of Fundy area in late July and early August as it stocks up on fuel for its long trip back to South America. The semipalmated sandpiper is unique and distinct--just like us. Wise semipalmated sandpipers know that the best place to fuel up is the Bay of Fundy, which is, coincidentally, where you'll find the Big Tide Brewing Company, source of some of the best fuel around.

# FUNDY TRAIL PARKWAY

Fundy Trail Parkway is a 2,559 hectare (6,323 acre) not-for-profit run park featuring a 19 km (12 mile) drive hugging the southern coast of New Brunswick with stunning views in every direction. You can drive the paved parkway that follows along the coastal cliffs, lace up your hiking boots or hop on your mountain bike and explore the scenic trails.

The Fundy Trail provides numerous opportunities for you to seek out pristine beaches, tumbling waterfalls, Precambrian rocks, and cliffs that tower at the ocean's edge. You will want to be sure to check out Long Beach, a 2.5 km tidal beach that lets you wander the ocean floor at low tide!

The Fundy Trail Parkway is the perfect mix of nature and culture and lays claim to being part of two UNESCO-designated sites, Stonehammer Global Geopark and the Fundy Biosphere Reserve. The parkway travels through 251-million-year-old rock and gives way to breathtaking coastal views. Visit the Big Salmon River Interpretation Centre to learn about the prosperous lumbering and shipbuilding community that once was Big Salmon River. The trail has been carved out of the Fundy escarpment and is one of the last remaining coastal wilderness areas between Florida and Labrador. The Fundy Trail understands and strives to maintain the delicate balance of human access and preserving the ecosystem, wilderness, and local history.
